PROTEC3D

FACE COVER SHIELD 'V2-basic'

Product description

The PROTEC3D face cover shield 'V2-basic' consists of three single parts:

- The pleasant-to-wear **headframe** – its flexibility lets it adapt perfectly to the shape of the head!
- The flexible **headband** – adjustable through the perforations to different head sizes!
- The very light, crystal clear **faceshield** consist of high quality polycarbonate – easy to clean or swap!

Product description – pictures

Product description – details

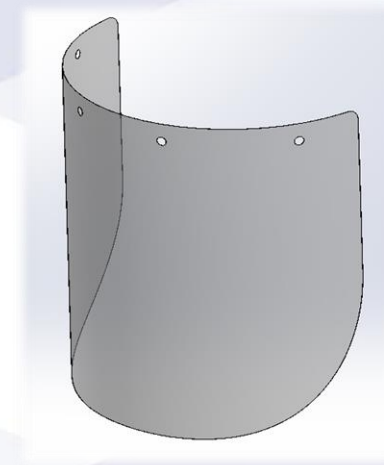

- The headframe and headband are stable, **easy to sterilise (80-100 °C) and can be reused for a long time.**
- The faceshield can be easily cleaned or replaced. With replacement shields **you spend less money over the long term than with comparable disposable products!**
- **Environmentally friendly – not a single-use item!**
- **Suitable for wearers of glasses!**
- **Protects against drops and splashes of liquids,** which reduces the risk of droplet infection.
- The face-cover-shield is very light and **weighs under 60g!**
- **Enough space** under the face shield **for a breathing mask and goggles.**
- The head-components are **made of high-quality plastic for medical applications.**
- The design minimises fogging up.
